

PRESS RELEASE

The Baltic Environmental Forum is organizing the final meeting of the project

“IMPLEMENTATION OF THE BIODIVERSITY MONITORING REQUIREMENTS IN ACCORDANCE WITH THE EU BIRDS AND HABITATS DIRECTIVES THROUGH FACILITATING COOPERATION AND STAKEHOLDER NETWORKING IN THE BALTIC STATES”

November 24-25, 2005, in hotel "Konventa sēta", Rīga, Latvia

The project is financially supported by the European Union, Phare 2002 “Cross Border Co-operation Programme in the Baltic Sea Region for Latvia”.

The **goals of the meeting** are the following:

- To introduce the results and outcomes of the project activities;
- To collect feedback on the developed recommendations and publication;
- To reflect on recent developments in the Baltic States with regard BD monitoring;
- To discuss next steps and possibilities for further transboundary cooperation regarding biodiversity monitoring in the Baltic States (new projects, etc.).

Target audience of the meeting is: Baltic Ministries of Environment and their subordinated institutions, protected areas administrations, universities and scientific institutes, non-governmental organizations and consultants.
