

Baltic regional thematic workshop

“Agriculture and good water quality: policy and management measures”

26-27 May 2022, Jelgava, Latvia

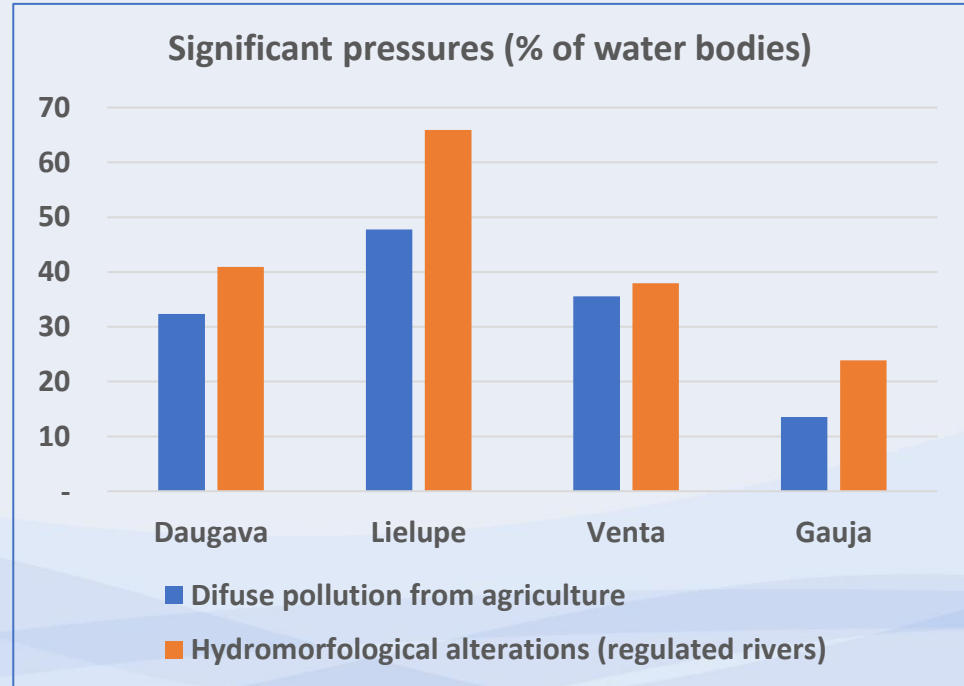

EU LIFE Programme integrated project

“Implementation of River Basin Management Plans of Latvia towards good surface water status”

Aim of the workshop:

- to discuss changes and best practice for **reducing agriculture** impacts to water quality caused by diffuse pollution and drainage as well as hydro morphological modification of the water bodies.

Themes of the day:

- Agriculture in river basin management plans
- Approaches to identify targeted solutions for addressing agriculture pollution
- Integration & interlinks between water and different policies with agricultural dimensions (critical water-energy-food-ecosystems (WEFE) nexus)
- Good practices in in planning and implementing measures for mitigating the agriculture impacts

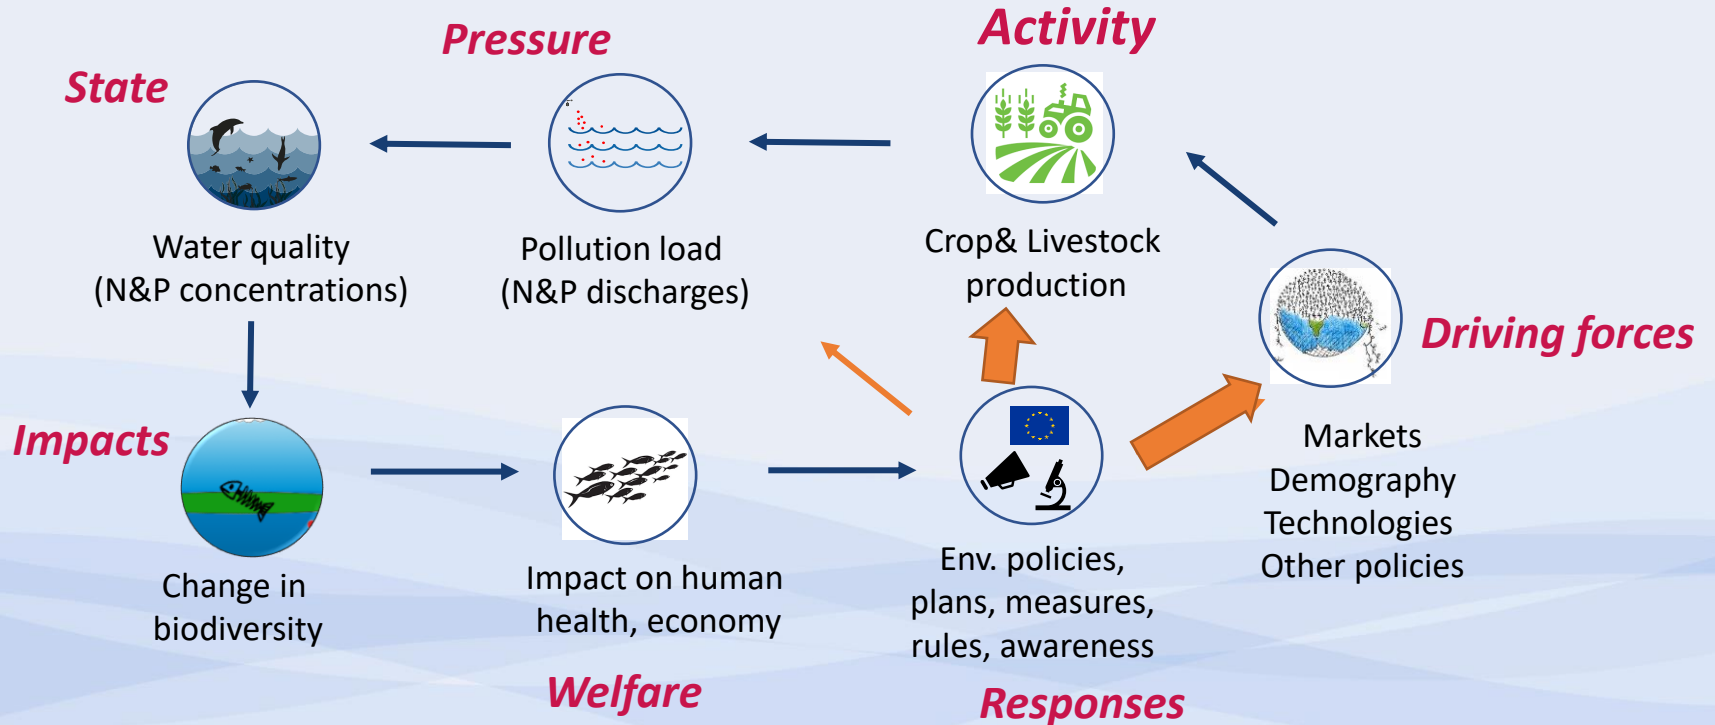

Outcome of the day & workshop:

- Shared knowledge on agricultural policies, activities and impacts and management measures
- Strengthened contacts among our countries to support further transboundary cooperation in water management

Integrated approach to water management
