

3rd International conference

“Waterside – A Space for Water, Land and People Interactions: Practices and Challenges in River Basin Management”

EU LIFE Programme integrated project

“Implementation of River Basin Management Plans of Latvia towards good surface water status”

Aim of the conference

- To foster the exchange of knowledge and experience for developing management measures in the interaction zones between water, terrestrial ecosystems, and human activities.
- By exploring the dynamics of diverse waterside environments, the conference seeks to identify improved management approaches, practices, and governance solutions for effective river basin management.

3rd International conference
**“Waterside – A Space for Water, Land and People Interactions:
Practices and Challenges in River Basin Management”**

Field trip | 08.10.2025.

EU LIFE Programme integrated project

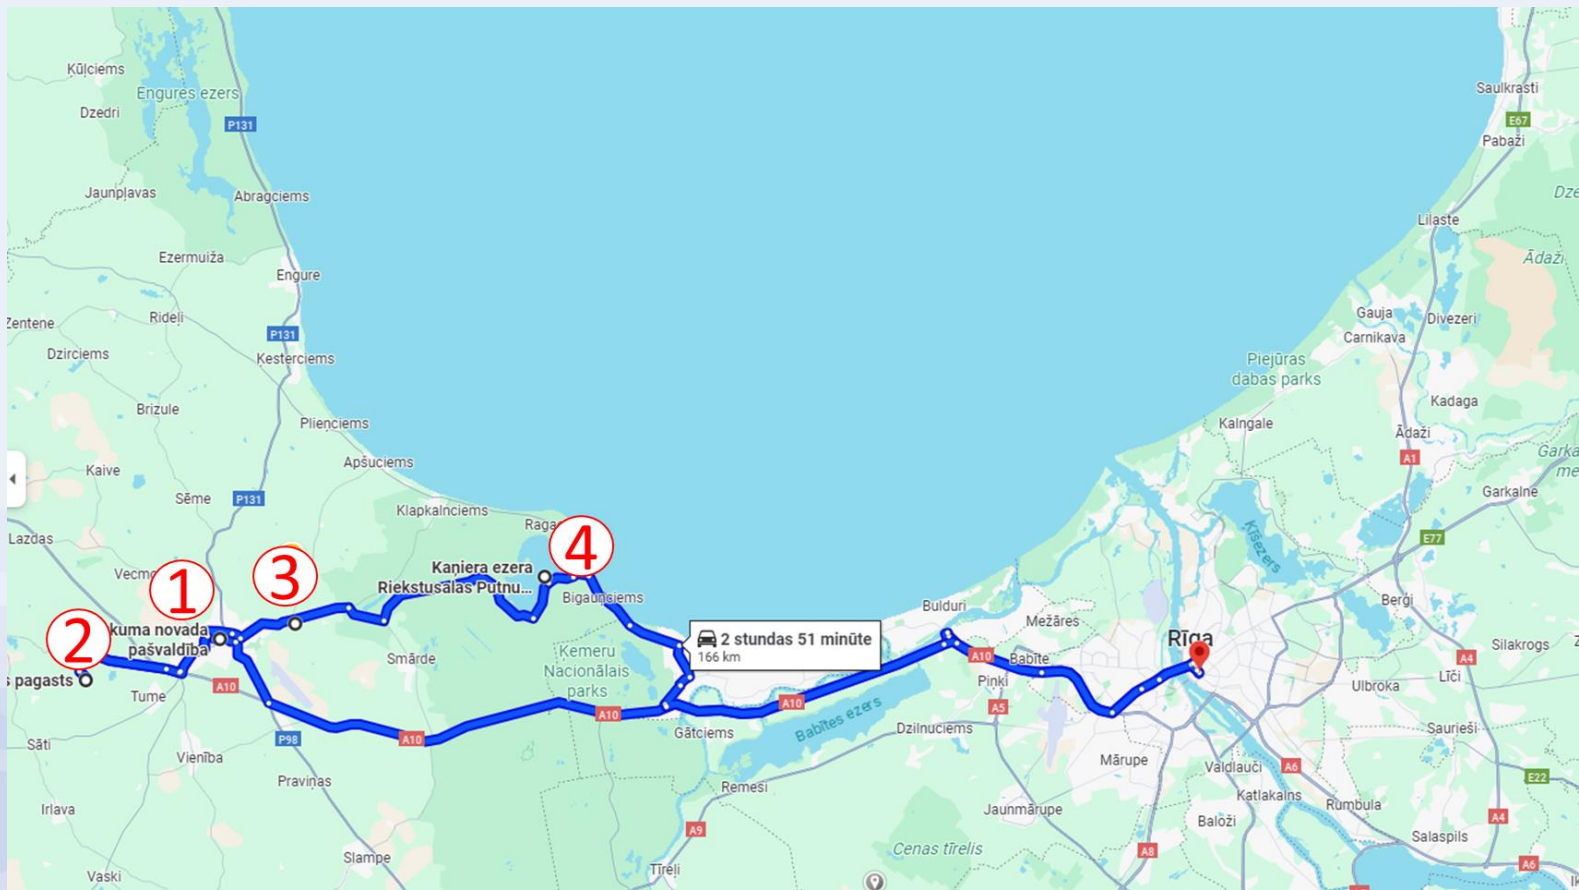

“Implementation of River Basin Management Plans of Latvia towards good surface water status”

Field trip

- to visit both urban and rural locations and explore water ecosystems and human interactions through various planning and management practices.
- Slocene river basin – one of demonstration areas of the LIFE GoodWater project.
